STRUCTURES**

QUARTERLY NEWSLETTER

WELCOME

Hello all. Autumn is finally upon us, with crisp mornings starting to show themselves! The Edifice team have been hard at work. Read on to find out what we've been up to.

In this Newsletter...

- New Staff
- Project Updates
- Social Media

Enjoy!

The Edifice Team

OUR TEAM

In the last few months, we've had 2 new team members join us, Zane as a construction hand, helping with prefabrication and installation of our bridge structures. Matt has also joined us as our Project Manager, making sure our onsite team are getting it done and our projects run smoothly. A warm welcome to you both, it's great to have you on the team!

TRENTHAM MEMORIAL BRIDGE

Last year the Edifice team completed the Trentham Memorial Bridge, an 8m long single span glulam structure located in Upper Hutt, Wellington. Our team prefabricated this structure at our plant based in Levin. It arrived to site ready for installation and everything ran smoothly. To access, take a walk through Trentham Memorial Park!

ROUGH CREEK BRIDGE

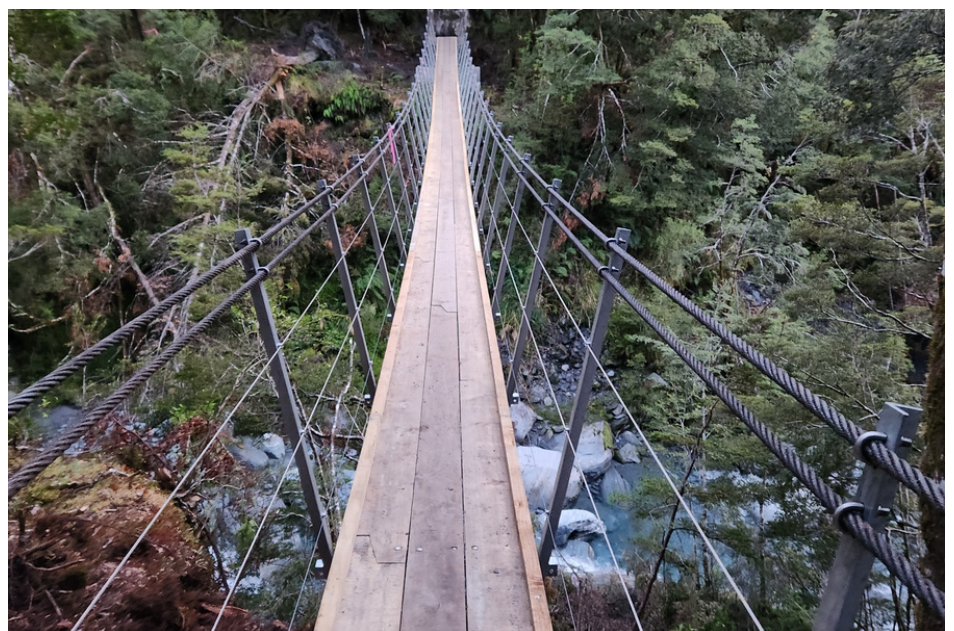

A new structure is now open along the Aspiring Hut to Shovel Flat track. The Edifice team worked on the swing bridge from mid January and it was completed in March 2023.

A technical structure to set out and build, the team prefabricated as much as they could before loading up and heading to the South Island.

All parties collaborated well to ensure this project came together nicely.

Despite some rainy weather on-site, our team were out there getting it done!

TAMAKUKU TERRACE BRIDGE

Our latest Case Study on the Tamakuku Terrace Bridge is coming soon.

This structure was made to add to a new Subdivision in Palmerston North. A great way to connect a community and encourage some outdoor activity amongst it.

"Tamakuku Terrace is part of a growing area of Palmy, and located in one of the most beautiful areas of our city. You can wake up to views of the Tararua and Ruahine Ranges, the Manawatū River is right on your doorstep and just a short drive away is the world renowned Te Apiti (Manawatū Gorge) with a range of beautiful walkways and scenery to enjoy.

Tamakuku is proudly brought to you by Palmy Council, so you can be assured you're moving into a subdivision where great services and amenities are at the forefront of your new home."
